## Diplomatic Communications Service

In my memorandum to you of October 25 I provided certain information concerning the subject activity requested by the Under Secretary preliminary to his discussions with the Director of the FBI.

Since that time there has come to my attention the attached communication signed by J. Edgar Hoover as Chairman of the Inter-departmental Intelligence Conference concerning this subject. I have attached also, a copy of my memorandum to Mr. [ ] concerning the IIC letter.

25X1A9A

If the Under Secretary has not yet had an opportunity to discuss this subject with [ ] I consider it important that he be aware of the October 21 letter. It is also the concerted opinion of most of the members of the ad hoc committee studying this problem that the IIC statement makes it even more important that the Under Secretary convey to J. Edgar Hoover the Department's position in this matter if we are to have any real chance of carrying through to successful conclusion.
